

STATIC CHARGE METER

(MODEL: SCM-01)

Reliable on-the-spot measurement of static charges has been easier than with the portable SCM-01. Hand-held, yet highly accurate and low drift, the SCM-01 answers three basic questions:

- 1) Is static present and on what Surfaces, materials or people ?
- 2) How much static?
- 3) What is the polarity of the Charge ?

The instrument is ideal for use in such static sensitive environment as electronic component production and assembly areas, clean rooms, computer, medical and R&D Laboratories, surgical rooms, medical device manufacturer, printing pres, packing and production lines, etc.

SPEFIFICATIONS:

Measurement Range	: +/- 5kV At 2.5 CMS
Measurement Accuracy	: +/- 10%
Indication	: Analog Dial
Test actuation	: Press TO read
Power supply	: 9 Volt Battery
Dimensions	: 125 x 65 x 35 mm
Weight	: 180GMS (With Battery)
Calibration	: Recommended every 12 months
Warranty	: 12 Months
Optional	: Instrument Carry case
